Fraste XL-1 Multi-Drill

Marooka rubber track mounted multi drill with rubber tracked support unit

Drill Features

Max torque: 10,000 ft-lbs
Pullback: 17,985 lbs
Pull down: 15,287 lbs
Typical maximum drilling depth (mud rotary): 300'

Capabilities

Mud rotary drilling
Diamond drilling
ODEX drilling
Angle drilling
Continuous flight auger drilling

Hollowstem auger drilling
All geotechnical testing
• SPT, Shelby, Vane Testing
• Deploying CPT

Equipment and Features

Double clamp breakout jaws
Centerline Mono mud pump
& 435 Bean pressure pump
IR 400/200 compressor

Automatic SPT hammer
Rotation safety guards
Main and auxiliary hoist winches
Skid steer support unit

Drill Travel Dimensions

Length: 27'
Width: 9'1"
Height: 11'1"
Weight: 39,700 lbs

Drill Setup Dimensions

Length: 23'
Width: 12'
Height: 28'
