## Fraste XL-2 & 3 Multi-Drill

Rubber track mounted multi drill

### Drill Features

Max torque: 10,000 ft-lbs  
Pullback: 17,985 lbs  
Pull down: 15,287 lbs  
Typical maximum drilling depth (mud rotary): 300'

### Capabilities

Mud rotary drilling  
Diamond drilling  
ODEX drilling  
Angle drilling  
Continuous flight auger drilling

Hollowstem auger drilling  
All geotechnical testing  
• SPT, Shelby, Vane Testing  
• Deploying CPT

### Equipment and Features

Double clamp breakout jaws  
Centerline Mono mud pump  
& 435 Bean pressure pump  
Automatic SPT hammer

Rotation safety guards  
Main and auxiliary hoist winches  
Skid steer support unit

### Drill Travel Dimensions

Length: 20'2"  
Width: 7'7"  
Height: 9'  
Weight: 19,000 lbs

### Drill Setup Dimensions

Length: 18' 10"  
Width: 11'  
Height: 29'1"  
\*Total footprint with control panel open
